## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/31/07 has been entered. Currently, claims 1-19 are pending.

### ***Response to Arguments***

2. Applicant's arguments, see pages 8-12 of the remarks, filed 10/31/07, and those presented at the personal interview conducted on 11/20/07, with respect to claims 1-14 have been fully considered and are persuasive. The rejection of claims 1-14 has been withdrawn.

### ***Allowable Subject Matter***

3. Claims 1-19 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose, teach, or suggest the claimed limitations of (in combination with all other limitations in the claims), display means for displaying, either dynamically or successively, which different processes the image data is undergoing at any given moment, beginning with image data reception and ending with image data printing, the display means comprising a plurality of different individual distinct display components aligned in a successive progression from image data reception to data printing to successively indicate, for a single print job, the different processes from image data reception to data printing that have been executed for the single print job, and that are displayed simultaneously on a display portion, as set forth in claim(s) 1 and 14 and a display unit displaying, either dynamically or successively, which different processes the image data is undergoing at any given moment, beginning with image data reception and ending with image data printing, the display means comprising a plurality of different display components successively indicating the different processes from image data reception to data printing, and that are displayed simultaneously on a display portion, the display components simultaneously displayed including: a spooling display component that indicates dynamically that the image data is in the process of being received by the printing apparatus, a drawing display component that indicates dynamically that the image data is in the process of being drawn in the image memory unit of the printing apparatus, a printing display component that indicates dynamically that the image data is in the process of being printed by the printing apparatus, a first spool data display component that indicates successively an amount of unprocessed image data not yet drawn in the image memory unit from

among that image data which has been received by the printing apparatus, a second spool data display component that displays the amount of unprocessed image data on a per-print-job basis, a drawing page display component that displays pages of image data in the process of being drawn in the image memory component of the printing apparatus, a printed page display component that displays pages of image data in the process of being printed by the printing apparatus, and a saved job display component that displays a list of print jobs stored in the image memory component of the printing apparatus, as set forth in claim **15**.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
